AMELIYA'S INDIA

AMELIYA'S AFRICA

A SAFARI WITH A SOUL

With each journey, we reimagine the art of safari—seamlessly blending raw wilderness with unrivaled luxury, comfort, and exclusivity. Across India and Africa, we bring our guests closer to iconic wildlife and the communities that share their landscapes, ensuring every moment is immersive, seamless, and deeply personal.

Whether it's tracking tigers in India, witnessing the Great Migration in Africa, looking for Snow Leopards in the Himalayas or traversing the remote waterways of the Okavango Delta, each experience is bespoke, thoughtfully curated, and designed to leave a lasting positive impact.

Whether you want to travel solo, or with friends, whether you want to spend a honeymoon on safari and add a beach destination or a take on a multi-country family adventure - we will be there by your side.

THE AMELIYA CONSERVATION FUND

Our safaris are more than just meticulously planned adventures with stunning accommodations and cultural immersion—they are driven by a purpose - one that protects, restores, and uplifts our natural world.

The Ameliya Conservation Fund stands as a lifeline for wildlife in need. Every single safari you embark on, helps us build waterholes for wildlife, equip anti-poaching units with essential gear, fight forest fires, and fund education programs for local communities.

Additionally, through the RESQ Fund's unwavering dedication, we rescue animals from human conflict situations, rehabilitate, treat, and release them back into their natural habitat. Together, we are not just saving lives—we are safeguarding the future of our planet.
